Communication

Work experience

09-2019 to 01-2021: Employee at Kanryo Solutions

As the right hand of the company manager, I had a multifaceted role. During summer festivals, I supervised teams, helped with set-ups, and actively participated in the execution. Outside of the event season, we focused on art logistics, ensuring safe and efficient transport of valuable artworks. My contribution was essential to the success of both events and art projects, always striving for perfection and customer satisfaction.

12-2016 to 01-2018: Employee at Deliveroo

Bicycle courier

01-2012 to 01-2016: Employee at Multiple

As a versatile hospitality employee, I have worked in various hospitality businesses, including restaurants, cafes and private events. My goal has always been to provide an excellent guest experience and ensure customer satisfaction.

Internships

11-2023 to 06-2024: Full stack developer at Cubitec

As a full-stack developer at Cubitec, I worked on projects from start to finish, both on new and existing applications. I developed and optimized backend and frontend components, with a focus on security, bug fixing and debugging. My work included database administration, API integration and implementing CRUD functionalities. I participated in agile processes, collaborated with team members and documented solutions. This internship improved my technical skills and emphasized the importance of effective communication and teamwork. I worked with technologies such as Java, JavaScript, and SQL.
